

List of Seminars sems. B 2020-2021 (Zoom)

Date	Lecturer	Title
1.3.2021	Dr. Nimrod Marom, Dept. of Archeology & Maritime Civilizations	Paleozoological Discoveries of the DEADSEA_ECO Project in the Judean Desert
8.3.2021	Prof. Dan Mishmar, Dept. of life sciences, Ben-Gurion University Ben-Gurion University	The identity crisis of the mitochondria: regulatory transition from bacteria to an organelle
15.3.2021	Dr. Elazar Zeltzer, Weizmann Institute	Revisit limb development
22.3.2021	No Seminar	
5.4.2021	Dr. Tamar Lotan, School of Marine Sciences	Ectopic activation of GABA _B receptors regulates early development and neurogenesis in the cnidarian sea anemone <i>Nematostella vectensis</i>
12.4.2021	Prof. Smadar Ben Tabu de Leon, School of Marine Sciences	Sea urchin skeletogenesis: regulatory control and evolution of biomineralization in a tube
19.4.2021	Prof. Ariel Chipman, Hebrew University	Assembling the arthropod body plan: A view from embryos and fossils
26.4.2021	Dr. Irit Nir, post-doctoral researcher, the environmental microbiology lab, Ben Gurion University,	Microorganisms and cultural heritage sites- environmental aspects
3.5.2021	Prof. Uri Frank	Germ cell specification in a cnidarian: the same as mammals but different
10.5.2021	Dr. Yoav Ram	Evolution of non-vertical cultural transmission
24.5.2021	Prof. Shai Meiri	Diversity and uniformity in vertebrate reproduction
31.5.2021	No Seminar	
7.6.2021	Dr. Tamar Friedlander	Evolution of new regulatory functions on biophysically realistic fitness landscapes
14.6.2021	Prof. Sarit Larisch	The ARTS connection- protein degradation, apoptosis and tumor suppression
