

List of Seminars Sems. B 2021-2022 in Campus

Date	Lecturer	Title
21.2.2022	Prof. Yehu Moran , Hebrew University of Jerusalem	The cnidarian antiviral immune system reflects ancestral complexity
28.2.2022	Prof. Martha Clokie , University of Leicester, UK	Phage Ecology Informing Applied Development
7.3.2022	Dr. Amit Gur , ARO, Agricultural Research Organization Neve Ya'ar	Yield Heterosis in Melon is Regulated Above and Underground
14.3.2022	No Seminar	
21.3.2022	Dr. Tali Treibitz , Charney School of Marine Sciences, University of Haifa	Our Eyes Beneath the Sea- Advanced Optical Imaging for Marine Research
28.3.2022	Dr. Doron Holland , ARO, Agricultural Research Organization Neve Ya'ar	Facing challenges of climate and fruit quality and incorporating genomic approaches to accelerate breeding
4.4.2022	Prof. Eran Levin , School of Zoology, Tel Aviv University	New discoveries on the ecology and nutrition of the Oriental hornet
11.4.2022	Prof. Edze R. Westra , University of Exeter, UK	The evolutionary ecology of host defence and counter-defence
18.4.2022	No Seminar	
25.4.2022	Prof. Oded Beja , Institute of Technology, Technion	Metagenomics And Rhodopsins At The Speed Of Light
2.5.2022	No Seminar	
9.5.2022	Prof. Laura Steindler , The Department of Marine Biology, University of Haifa	Sponges: genomic adaptations of symbionts and metabolic interactions within the holobiont
16.5.2022	Prof. Oded Rechavi , Department of Neurobiology, Tel Aviv University	Rethinking inheritance (of acquired traits)
23.5.2022	Prof. Edi Barkai , Sagol Department of Neurobiology, University of Haifa	A biophysical mechanism for epigenetic inheritance of enhanced complex learning capabilities
30.5.2022	Prof. Yoni Belmaker , Faculty of Life Sciences, Tel Aviv University	The fate of fish: Consequences of human impacts on Mediterranean fishes
6.6.2022	Prof. Adi Livnat , The Department of Evolutionary and Environmental Biology, University of Haifa
